

September KPI Plan — Outreach & Sales Manager, Debridgers

Name: Henry Okpere C. **Role:** Manager, Outreach & Sales **Period:** September (Month)

Overview

As the Outreach and Sales Manager at Debridgers, my focus for September is to grow produce sales, build consistent outreach momentum, and lay the groundwork for more reliable, cost-effective sourcing. Below are the three KPIs I'll be tracking this month, along with what success looks like for each.

1. Sales Target

Goal: Sell at least 5 bags of produce (beans) by the end of September.

This is the core revenue KPI for the month. It reflects direct sales closed through outreach efforts and gives a clear, measurable benchmark for whether the sales push is working. Progress will be tracked weekly to catch early whether I'm on pace, so there's time to adjust the approach if needed.

2. Outreach Activity

Goal: Conduct outreach at least 4 days a week, with a minimum of 2 hours dedicated to it each day.

Outreach is the engine behind the sales number above — consistent activity is what drives consistent results. This adds up to at least 8 hours of active outreach per week (roughly 32+ hours for the month), covering calls, visits, follow-ups, and new contact development. Tracking this separately from the sales figure ensures effort is being measured, not just outcomes — which matters if a slow sales week isn't due to lack of effort but to market timing.

3. Supplier Sourcing

Goal: Identify and vet suppliers who can deliver produce at an affordable, sustainable price.

This is a groundwork KPI rather than a numbers-driven one — it's about setting up the supply side so future sales aren't limited by cost or availability. Success here means having a shortlist of viable suppliers by month-end, with pricing and delivery terms clear enough to make sourcing decisions going into October.

Summary Table

KPI	Target	Frequency
Bags sold	5 bags minimum	By end of September

Outreach	2 hrs/day	At least 4 days/week
Supplier sourcing	Shortlist of affordable, reliable suppliers	Ongoing through September

This plan will be reviewed at the end of the month to assess performance and set targets for October.
