

DEBRIDGERS HR SYSTEM - COMPREHENSIVE BUILD PROMPT

COMPANY CONTEXT

Company: Debridgers LTD (CAC RC: 9573579) **What We Do:** Food commodity aggregator and distributor in Kaduna, Nigeria. We source grain, beans, tubers, and oils in bulk from farmers and suppliers, then deliver to B2B food businesses (restaurants, caterers, hotels, institutions). **Tagline:** "Grown with purpose. Supplied with trust." **Team:** 5-6 core staff initially; scaling to agent network across Kaduna.

PROJECT GOAL

Build a fully functional **HR Web Application/Dashboard** that automates:

1. Recruitment & hiring pipeline (job posting → offer → onboarding)
2. Employee directory & profiles
3. Performance management & reviews
4. Employee reports & submissions (work activity, leave requests, expense reports, incident reports)
5. Manager approvals & workflows
6. Organizational chart
7. Automated notifications & emails
8. HR policies & documentation access

Output: Production-ready web application accessible via web browser for HR managers, hiring managers, regular managers, and employees.

CORE FEATURES

1. RECRUITMENT & HIRING PIPELINE

Job Posting

- HR Manager creates job postings with: title, department, location, description, requirements, salary range
- Postings auto-published to website job board
- Track status: Open, Closed, Filled
- Auto-notify Hiring Managers when jobs posted

Application Submission

- Public job application form on website
- Capture: full name, email, phone, CV/resume (file upload), cover letter, selected job position
- Auto-confirmation email sent to candidate
- HR Manager receives notification of new application

Screening

- HR Manager/Hiring Manager dashboard view of all applications per job
- Status per application: Received, Screening, Pass/Reject
- Add notes and feedback
- Send rejection email to rejected candidates (with optional feedback)

Interview Scheduling

- HR Manager selects "Pass" candidates for interview
- System shows available interview time slots
- Send interview invitation email to candidate (date, time, location, interviewer name)
- Candidate can confirm/decline via email or system
- Track interview status: Scheduled, Completed, No-Show, Rescheduled
- Interviewer adds post-interview feedback: rating (1-5), technical score, cultural fit, notes

Hiring Decision

- Hiring Manager/HR decides: Approve (send offer) or Reject

- APPROVED: Generate offer letter with position, salary, start date, benefits, offer expiration date
- Send offer letter to candidate via email
- Integrate with Jotform Sign for digital signature
- Track offer status: Sent, Accepted, Rejected, Expired

Onboarding

- Once offer accepted, automatically create employee profile
 - Send employee contract for e-signature (via Jotform Sign)
 - Send employee handbook (PDF) via email
 - Send welcome email with onboarding checklist, first-day info, company policies
 - Grant employee system access
 - Mark job position as Filled
-

2. EMPLOYEE DIRECTORY & PROFILES

Employee Profile Fields

- Personal: Full name, email, phone, date of birth, address, next of kin, emergency contact
- Employment: Job title, department, manager, start date, employment type (Full-time/Part-time/Contract/Agent)
- Compensation: Salary, work location, employment status (Active/On Leave/Probation/Terminated)
- Documents: Contract (PDF), NIN/ID number, certificates, bank account, tax ID

Directory Features

- Search employees by name, department, title
 - View profiles (access levels: own profile, team profiles for managers, all profiles for admins)
 - Update own profile (employees can update personal info)
 - Filter by department, employment status
-

3. EMPLOYEE REPORTS & SUBMISSIONS

Report Types

1. Work Activity Reports

- Frequency: Daily, Weekly, or Monthly (configurable per department)
- Content: Tasks completed, milestones, challenges, next steps
- Status: Draft, Submitted, Approved, Rejected, Revision Requested

2. Performance Self-Assessment

- Part of annual review cycle
- Content: Achievements, learnings, goals met, areas for improvement, goals for next period
- Linked to annual performance review

3. Leave Requests

- Types: Annual, Sick, Compassionate, Personal
- Fields: Leave type, start date, end date, duration, reason, coverage plan
- Status: Pending, Approved, Rejected, On Leave
- Manager approval required

4. Expense Reports

- For: Agents, field staff, authorized personnel
- Fields: Description, amount, date, category, receipt/documentation attachment
- Categories: Travel, Meals, Materials, Client entertainment, Other
- Status: Pending, Manager Approved, HR Approved, Reimbursed

5. Incident/Safety Reports

- Fields: Incident date/time, description, people involved, impact, corrective actions
- Categories: Safety incident, HR issue, Conflict, Damage, Other
- Escalation: Auto-escalate critical incidents to HR Manager
- Status: Reported, Under Investigation, Resolved, Closed

6. Project/Task Status Reports

- Frequency: Weekly for projects, on-demand for tasks
- Fields: Project/task name, progress %, completed items, blockers, next steps
- Status: Draft, Submitted, Approved

Report Submission Workflow

1. Employee creates new report (select type, fill fields, attach files if needed)
2. Save as Draft (can return later) or Submit
3. Manager receives email notification with link to review
4. Manager approves, requests revision, or rejects with feedback
5. If revision requested, employee edits and resubmits
6. Once approved, report marked complete, employee notified
7. Reports searchable/viewable in employee's history

Report Dashboard

- Employee view: My Reports (filters: Draft, Pending, Approved, Rejected), report history
 - Manager view: Team Reports (filters by employee, type, date, status), pending approvals, metrics
 - HR/Admin view: All company reports, compliance tracking, submission rates, export to PDF/Excel
-

4. PERFORMANCE MANAGEMENT & REVIEWS

Annual Performance Review

- Scheduled on/near hire anniversary
- Self-assessment form (employee reflects on achievements, goals, learning)
- Manager evaluation (goals met Y/N, performance rating 1-5, feedback)
- Manager can request additional peer feedback

Rating Scale

- 5: Exceeds Expectations
- 4: Meets Expectations

- 3: Meets Most Expectations
- 2: Below Expectations
- 1: Does Not Meet Expectations

Performance Improvement Plans (PIP)

- If performance below expectations, manager creates PIP
- Outline: specific goals, timelines, support, success criteria
- Track progress, mark as passed/failed

Probation Review

- Auto-triggered 3 months after hire
 - Manager assesses fit for role and culture
 - Decide: Confirm employment or terminate
-

5. ORGANIZATIONAL CHART

Features

- Tree view: CEO at top, direct reports branching down by department
 - Each employee card: name, title, department, direct reports count
 - Click to view full profile or reporting chain
 - Filter by department/team
 - Auto-update when org structure changes
-

6. HR POLICIES & DOCUMENTATION

Policy Library

- Employee Handbook (master document)
- Code of Conduct
- Leave Policy
- Payroll & Compensation Policy

- Performance & Disciplinary Policy
- Health & Safety Guidelines
- Data Privacy & Confidentiality Agreement

Features

- Version control (track updates, effective dates)
 - Employee acknowledgment (employees sign/confirm reading)
 - Access levels (some public to all employees, some restricted like salary policies)
 - Auto-email distribution when policies updated
-

7. USER ROLES & PERMISSIONS

Admin

- Full access to all modules and data
- User management (create/edit/delete employee records)
- System settings

HR Manager

- Manage all job postings, applications, interviews, offers
- View all employee records and reports
- Approve/reject employee reports
- Manage performance reviews
- Access all HR data for compliance/analytics

Hiring Manager

- View open job positions
- View and rate candidates
- Schedule and conduct interviews
- Approve/reject candidates
- View own employee profile

Manager (Department/Team Manager)

- View own team's employee directory
- Approve/reject team member reports
- Conduct performance reviews for direct reports
- View team performance dashboard

Employee

- Submit reports (work activity, leave, expenses, etc.)
 - View own profile
 - View own performance review
 - Access policies and handbook
 - Receive notifications
-

8. NOTIFICATIONS & EMAIL AUTOMATION

Automated Email Triggers

- Job Posted → Hiring Managers notified
- Application Submitted → Candidate confirmation + HR Manager notification
- Interview Scheduled → Candidate invite + Interviewer reminder
- Offer Sent → Candidate receives offer with expiration date
- Offer Accepted → HR Manager + onboarding team notified
- Report Submitted → Manager receives review notification
- Report Approved → Employee notified
- Revision Requested → Employee notified with feedback/deadline
- Leave Request Submitted → Manager receives notification
- Leave Approved → Employee receives confirmation + calendar update
- Handbook Sent → New employee receives handbook PDF
- Performance Review Due → Manager reminder

- Rejection Sent → Candidate notified

Email Features

- Plain text or HTML templates
 - Personalization (recipient name, details)
 - Direct links to take action (e.g., "Review Application" link)
 - Unsubscribe option (for candidates)
-

9. INTEGRATIONS

Jotform Sign

- Generate offer letters in system
- Send via Jotform Sign for digital signature
- Track signing status
- Download signed documents
- Same for employee contracts and policy acknowledgments

Email Service

- Send all automated notifications (Gmail, Sendgrid, or similar)
- Support for custom email templates

Google Sheets (Optional)

- Export reports, employee data, analytics to Google Sheets
- Daily/weekly sync for backup and analysis

Company Website

- Embed job posting board (filtered from HR system)
 - Embed application form that submits to HR system
-

10. DATA STORAGE & SECURITY

Database

- Store: Job postings, applications, employees, reports, performance reviews, policies, audit logs
- Primary key: Employee ID, Application ID, Report ID
- Relationships: Employees → Manager (foreign key), Applications → Job Posting, Reports → Employee, etc.

Security

- User authentication (email/password)
 - Password hashing (bcrypt or similar)
 - Session management (30-day inactive logout)
 - Role-based access control (RBAC) — users only see data relevant to their role
 - Encrypted storage for sensitive data (salary, SSN)
 - Audit logs of all data changes (who, what, when)
 - HTTPS only (SSL/TLS)
 - Regular backups
-

TECH STACK RECOMMENDATION (Flexible)

Frontend: React.js, Vue.js, or vanilla JavaScript **Backend:** Node.js (Express.js), Python (Django/Flask), or similar **Database:** PostgreSQL or MongoDB **Hosting:** AWS, Heroku, or similar **Email:** Sendgrid, Gmail API, or AWS SES **Authentication:** JWT tokens or session-based **File Storage:** AWS S3 or local file system

USER FLOWS

Candidate Applies for Job

1. Candidate visits Debridgers website
2. Clicks "Careers" or "Open Positions"
3. Sees list of job postings with titles, locations, brief descriptions
4. Clicks "Apply Now" on a job

5. Fills application form (name, email, phone, CV upload, cover letter, job selection)
6. Submits application
7. Auto-confirmation email sent to candidate
8. Application appears in HR Manager dashboard

HR Manager Reviews & Schedules Interview

1. HR Manager logs in to HR dashboard
2. Sees "New Applications" count
3. Clicks to view applications for a job posting
4. Reviews candidate CV, cover letter, notes
5. Clicks "Pass to Interview" or "Reject"
6. If passing, selects available interview time slot
7. System auto-generates interview invitation email
8. Sends to candidate email address
9. Candidate receives email with interview details

Candidate Receives Offer & Signs

1. After interview, Hiring Manager approves candidate
2. HR Manager generates offer letter
3. Sends via Jotform Sign
4. Candidate receives email link to review and sign
5. Candidate signs digitally
6. Signed offer automatically stored in system
7. HR Manager notified when signed
8. Onboarding process triggered

Employee Submits Work Activity Report

1. Employee logs in to system
2. Clicks "Submit Report"

3. Selects "Work Activity Report"
4. Fills in tasks, milestones, challenges, next steps
5. Saves as Draft or Submits
6. Manager receives notification email with link to review
7. Manager opens report, reads, clicks "Approve" or "Request Revision"
8. If approved, employee notified
9. If revision requested, employee edits and resubmits
10. Report appears in employee's report history

Manager Approves Leave Request

1. Employee submits leave request (select dates, leave type, reason)
 2. Manager receives notification email
 3. Manager opens link, reviews request
 4. Clicks "Approve" or "Reject"
 5. If approved, employee notified + calendar updated
 6. Leave status appears in employee's leave balance tracking
-

FILE UPLOADS

- Candidate CV/resume (PDF, DOC, DOCX)
- Cover letters (same formats)
- Expense report receipts (PDF, JPG, PNG)
- Incident report attachments
- Employee documents (contract, certificates)
- Policy documents (PDF)

Storage: Local server or cloud storage (AWS S3, Google Cloud Storage) **Max file size:** 10MB per file

REPORTING & ANALYTICS

HR Manager Dashboard

- Total job postings (open, closed, filled)
- Total applications received
- Application conversion rate (applied → interviewed → hired)
- Time-to-hire average
- Number of employees by department
- Upcoming performance review dates
- Report submission rates (% of employees submitting on time)
- Leave balance overview

Manager Dashboard

- Direct reports count
 - Pending reports to approve
 - Pending performance reviews
 - Team leave calendar
 - Team performance trends
-

PRIORITY FEATURES (MVP vs. Future)

MVP (Must Have for Launch)

- Job posting & application management
- Interview scheduling & offer generation
- Employee directory & profiles
- Basic performance reviews (annual only)
- Leave request submission & approval
- Report submission (work activity reports only)
- HR Manager & employee dashboards

- Email notifications for critical events

Phase 2 (Nice to Have)

- Advanced analytics & reporting
 - 360-degree feedback
 - Expense report management
 - Incident report tracking
 - Org chart visualization
 - Policy management system
 - Performance improvement plans
 - Integrated payroll (complex, defer if possible)
-

SUCCESS CRITERIA

- Candidates can apply for jobs on website in <2 minutes
 - HR Manager can review applications and schedule interviews in real-time
 - Managers can approve/reject employee reports within dashboard (not via email)
 - Automated emails sent instantly (no delays)
 - All user data searchable and accessible per role permissions
 - System handles 100+ employees and 1000+ applications per year
 - 99.9% uptime
 - Zero data loss (regular backups)
 - Mobile-responsive (usable on phones/tablets)
-

DEPLOYMENT & LAUNCH

Environment: Production (live), Staging (testing) **Domain:** debridgers.com or subdomain (hr.debridgers.com) **SSL/HTTPS:** Required **Testing:** Unit tests, integration tests, user acceptance testing **Training:** HR Manager and employee training on how to use system **Support:** Documentation, help guides, email support

DELIVERABLES

1. Fully functional HR web application deployed to live domain
2. Admin/HR Manager dashboard (complete access)
3. Employee dashboard (apply, submit reports, view profile)
4. Manager dashboard (approve reports, conduct reviews)
5. Public job board (on company website)
6. Automated email notification system
7. Jotform Sign integration
8. Database with all schemas and migrations
9. User documentation/help guides
10. Video tutorials for key workflows

NOTES & CONSTRAINTS

- Company is early-stage (founded Sept 2026), so system must scale from 5 employees to 50+ over next 2 years
- Kaduna-based, Nigeria operations (consider timezone, email service reliability)
- Budget-conscious (use open-source tools where possible, consider no-code alternatives like Airtable + Zapier if budget is tight)
- Must integrate with Jotform Sign (already in use)
- Optional: Export data to Google Sheets for backup/analysis
- Must work on slower internet (Kaduna, Nigeria may have occasional connectivity issues)
